## Professional Summary

Computer Science graduate with hands-on experience in IT operations, Windows endpoint management, Active Directory administration, and technical troubleshooting. Experienced in PC imaging and deployment, enterprise application support, email account configuration, and troubleshooting network and VoIP devices. Familiar with DNS services, server administration, and infrastructure support in coordination with Network Administrators. Adaptable and detail-oriented, with a strong foundation in programming, web development, and IT service operations.

## Experience

**IT-NOC Systems Engineer I** Oct. 2025 – Present
*ePerformax* *Pasay City, Metro Manila*

- **Windows Endpoint Management:** Install, configure, and maintain Windows 10/11 operating systems and enterprise applications. Perform PC imaging, deployment, upgrades, rollbacks, and workstation setup for new hires and operational teams.
- **Technical Troubleshooting:** Diagnose and resolve hardware, software, operating system, display, audio, peripheral, and network connectivity issues to maintain endpoint reliability and minimize operational disruptions.
- **Identity & Access Management:** Administer Active Directory accounts, including account creation, password resets, unlocking, disabling/reactivation, and organizational unit (OU) management. Remotely access servers to perform authorized Active Directory administration tasks through established workflows.
- **DNS & Network Support:** Assist with configuring and troubleshooting internal and external DNS services and basic LAN/VLAN connectivity issues in coordination with Network Administrators.
- **Email & Application Support:** Create and configure employee email accounts, set up Microsoft Outlook, and troubleshoot email access and application-related issues. Support Microsoft 365, MDaemon Account Manager, Zoom, and other enterprise applications.
- **VoIP & Communications Support:** Troubleshoot Cisco IP phones and support enterprise communication systems, including Avaya, Sangoma, and NICE, coordinating with Network Administrators for advanced issues.
- **Server & Infrastructure Support:** Assist with server administration, system maintenance, and infrastructure troubleshooting under the guidance of Network Administrators, including remote access for authorized Active Directory tasks.
- **IT Operations & Incident Management:** Handle technical support tickets, document troubleshooting steps and resolutions, maintain asset records through HRIS/LAF, and coordinate with IT Security and Network teams to resolve incidents and support service continuity.
- **Endpoint & Remote Support Tools:** Provide support for IGEL endpoints, TLK devices, and NetMoon, following established operational procedures and escalation workflows.

**Customer Service Representative (Project-Based, Back Office)** Aug. 2024 – Oct. 2025
*Shopee, ePerformax* *Pasay City, Metro Manila*

- Reviewed product listings across Shopee and TikTok Shop to ensure accuracy, compliance, and customer trust.
- Analyzed competitor pricing trends to support strategic positioning.
- Contributed insights to support revenue growth and customer retention.

**Quality Assurance Intern** July 2022 – Sept. 2022
*Macrologic Diversified Industries Inc.* *Bacoor, Cavite*

- Performed QA testing to ensure adherence to industry standards.
- Built custom PCs based on client requirements.
- Handled software installations and system optimizations.

## Technical Skills

**Operating Systems:** Windows 10/11 installation, imaging, deployment, configuration, and troubleshooting
**Identity & Access Management:** Active Directory, user account creation and administration, password resets, account unlocking, disabling/reactivation, domain joining, and OU management
**Networking:** DNS troubleshooting, basic LAN/VLAN troubleshooting, network connectivity diagnostics, and coordination with Network Administrators
**Email & Unified Communications:** Microsoft Outlook setup, email account administration, MDaemon Account Manager, Cisco IP phones, Avaya, Sangoma, and NICE

**IT Operations & Support:** PC imaging and deployment, hardware and software troubleshooting, remote support, ticket management, asset documentation, and incident escalation
**Enterprise Platforms & Endpoints:** Microsoft 365, Zoom, IGEL endpoints, TLK devices, and NetMoon
**Development Tools:** Git, Visual Studio Code

## Awards and Certifications

**Samsung Create National Idea Contest** Philippines
*Top 10 Finalist* *2023*
- Presented a research-based innovation at a national-level competition.

**IoT Fundamentals: IoT Security** Cisco Networking Academy
*2022* *Lyceum of the Philippines University-Cavite*

## Education

**Lyceum of the Philippines University-Cavite** Gen. Trias, Cavite
*Bachelor of Science in Computer Science* *2019 – 2023*
**Lyceum of the Philippines University-Cavite** Gen. Trias, Cavite
*ICT-TVL Strand* *2017 – 2019*
